This is the official notification of the AGM with final paperwork being sent by post in due course.

EXETER TRIAL The organisers of this event are urgently looking for someone to take on the post of Chief Marshal which requires experience and skills in management. Part of the job consists of working with the Clerk of the Course to plan the route and sections, then recruit marshals and finally to ensure they are properly briefed on what they have to do. It's an interesting post and one that is essential to the success of the event.

TESTING TRIAL Although we are over half way towards our target of 100 entries there are still plenty of places available. Regs and entry forms may be downloaded from the web site or if you are not equipped for this just send an SAE to: John Aley, 20 Old Shipyard Centre, West Bay, Bridport DT6 4HG.

The Trial's on Sunday 16th July - a week after the AGM - and uses an entirely new and most interesting, easily accessible, course at Keinton Mandeville in Somerset. The usual format of ten or more simple trials sections each of which is timed will be employed making the event a good practice outing for the newcomer while allowing the more experienced to demonstrate their skills. Despite being somewhat exposed there will be the usual mod cons available plus all day food being served by the local villagers. As the Sally Ann allegedly used to say "Come and join us".

UPDATE on LANDS END VIDEO This is now available. To ensure that the majority of competitors appear in the film and make it as interesting as possible is very time consuming. The original footage had to be cut down to 4 hours of cars (being a double DVD) and 1.5 hours of bikes.

The price is £16.50 for either the bikes or cars £25 for both from JKL Video Film Services 01395 512805.

The SUMMER RUN takes place on 11th June in the Cotswolds. It's well subscribed already but a call to the organiser Ron Butcher on 01233 624737 might secure you a place in this relaxed event.

FOR SALE I have a complete rear axle and diff. with drums brakes and linkages. It comes from a 1949 Austin Devon Van 1500cc, as it's van based it might prove a low ratio and help some one with diff problems, I think it could be adapted to many BMC variants. All I ask is a sensible donation to my charity ROYAL A IR FORCES ASSOCIATION Wings Appeal. Also I'm looking for a home for my Mini Special as a new project is under way.
